Suvina Singal is a Ph.D. candidate in sociology at Brown University in Providence, Rhode Island, USA. Her dissertation entitled "Making the Value of Privacy" focuses on understanding how the value of privacy is decided and quantified under five different data privacy regulations across the US and the EU.

Between October and November 2023, Suvina is a visiting researcher at the d.pia.lab and LSTS. During her visit, Suvina will focus on collecting archival materials and conducting interviews in relation to deliberative process of formulating the GDPR between 2009 and 2016, and quantification practices of GDPR fines since 2018.
